4			VAT Tax	1	\$2,192.88	\$2,192.88
5			Micro clippings refer to very small cuttings taken from a parent plant — typically just a few millimeters to a centimeter in length — used for propagation, tissue culture, or laboratory-scale plant research. Unlike traditional stem or leaf cuttings, micro clippings are often collected with precision tools to minimize damage to the donor plant, making them especially valuable when working with rare, endangered, or genetically significant specimens.	145000	\$0.0145	\$21,025.00
6	F01-1406-B19-W95	hasItemNames	Plated Bangle Bracelets taken from a parent plant — typically just a few millimeters to a centimeter in length — used for propagation, tissue culture, or laboratory-scale plant research. Waterproof Stain Steel Bracelets Size	195000	\$0.0195	\$38,025.00
